### Skills

React

Next

Node

Tailwind

### Profile

I'm a web developer focused on creating most user friendly experience and expanding my knowledge thru my projects. I'm most experienced in using React based frameworks for my projects ensuring quality. Even though I still consider myself a junior developer because of lack of any real world experience in a company environment I still consider myself a good candidate. Please feel free to contact me be it job related or just talking.

### Experience

#### Freelancer

Web Developer

May 2023 - Present

- Designed user friendly application ensuring a good experience
- Designed and coded backend and front end services for many projects using Next.js
- Created static sites for various clients.
